In the background, there are trees and a building with a sign that says "Solid". In the foreground, a large crowd of people is visible, many with their hands raised, suggesting a concert or festival setting.

ENTERTAINERS & ATHLETES

FINANCIAL ADVISORS ARE A NECESSITY
HERE'S WHAT WE CAN DO FOR YOU

Busy, high-net-worth individuals such as yourself could use a financial advisor to help manage your assets, complex strategies, investments, and retirement plans. A financial advisor is a professional who can provide sound advice and assistance when it comes to planning for your future. At Maeder Wealth Group, one of our specialties is advisory based wealth management for entertainers and athletes.

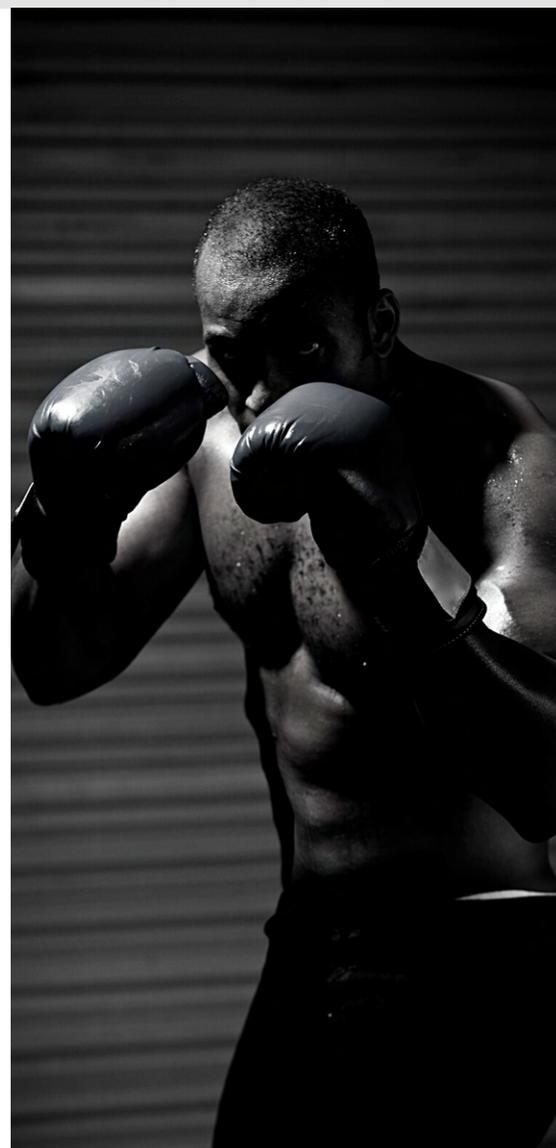

Your situation is unique, and you deserve a professional on your side that is competent to execute specific strategies for your investment planning. Our team is highly trained and proficient in the latest technologies and techniques used to manage your assets. We provide personalized services for each client, help ensure that all plans and strategies are tailored to meet your specific financial needs.

Here is a small portion of what we can do for you:

STOP BEING TAKEN ADVANTAGE OF.

An advisor can help prevent you from being taken advantage of when investing. Unfortunately, wealthy and highly occupied individuals are often exploited. When engaging in a large transaction, such as a real estate purchase or stock sale, an advisor can help you to understand the implications of your purchase or sale.

We are also able to provide insight into mitigating risk, capital preservation, and helping you to achieve your financial goals while chasing your dreams. If you've already participated in a transaction that you weren't fully educated on, we can help you to understand its implications and develop a strategy that can help you move forward.

ORGANIZING THE BEST CARE

Our goal is to put you in the best position possible to help you achieve your definition of success. One way that we do that is by organizing and collaborating with other professionals in fields you need assistance with. Attorneys, CPAs, Real Estate professionals, and more could all be a part of your team.

Financial advisors have a regulatory scope of practice limitations, but by partnering with other professionals on your team we can help to ensure that all of our bases are covered.

Wells Fargo Advisors Financial Network does not provide legal or tax advice. Connecting and collaborating with professionals within those practices can help us provide you with comprehensive care.

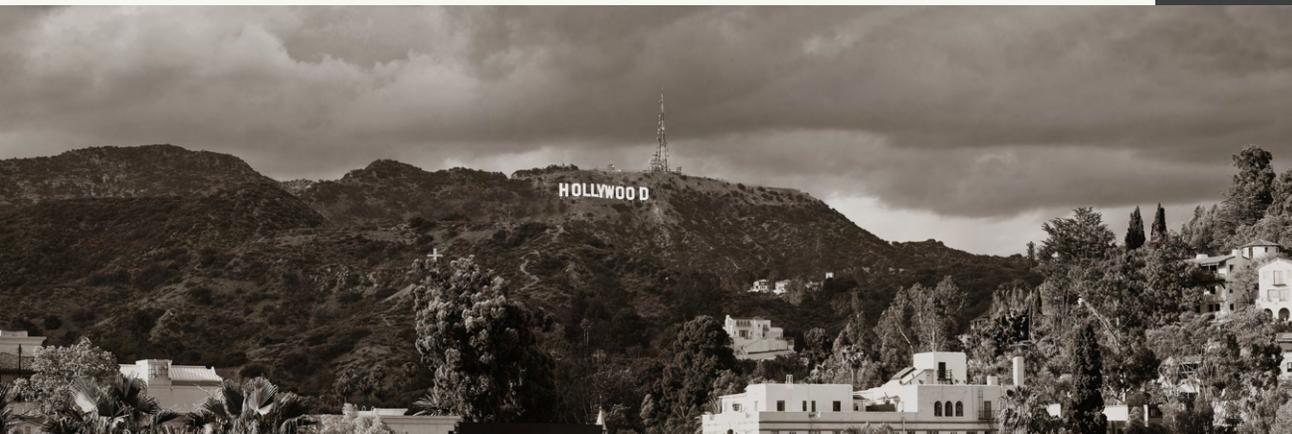

GETTING STARTED IN THE U.S.

If you have recently moved to the United States, we can assist in creating a new investment plan that operates under U.S. regulations, including taking advantage of the resources available to you as a new resident. Our company can provide you with education on your options for planning, investing, and more while assisting you through the process of your financial transition.

DEVELOPING AN EXIT STRATEGY AND RETIREMENT PLAN

While many in your position may not want to think about it, having an exit strategy and retirement plan is an essential part of your financial strategy. Your business is unique and requires expertise and knowledge to craft a plan that will work for you. We understand the potential risks, rewards, and long-term strategies that help set you up for the life you desire during retirement.

Your retirement does not have to mean not working. There are plenty of retirement options available to you, and we can help you explore them and create a plan that works for you.

At Maeder Wealth Group, we understand that your financial situation is unique and requires individualized strategies to form a plan that is designed to meet your needs. We specialize in advisory based wealth management for people like you, providing personalized services tailored to your specific financial goals. With us on your side, we believe you can trust that we will provide sound advice when it comes to planning for your future while positioning you for the long term.
